#KawalluTravel

Kawallu Travel offers the innovative equestrian holiday passport, which allows you to enjoy a tailor-made trip with exclusive routes safely designed for you, available from 2023.

Many people think that to go on a horseback vacation you need to at least have some riding experience, but with Kawallu Travel it doesn't necessarily need to be that way. We can cater for new riders, families, children, those that haven't ridden in a long time, as well as experienced riders looking for a challenge, to design a wonderful adventure just for you. With the passport, you can select and mix and match routes to suit all levels of experience in your group.

Kawallu Travel offers an extraordinary experience on the back of a purebred horse in Chile. On these gentle, hardy beasts you will travel to beautiful and extreme landscapes of Chile, and get to know first-hand the customs, culture and gastronomy of these undiscovered parts of Latin America, accessible only on horseback.

The crossing of the Andes Santiago

The first zero-emission equestrian route crossing the central Andes of Santiago, Chile's capital, this experience will take you through three days of horse riding on a Chilean purebred horse through the same route Charles Darwin took more than a hundred years ago. Condor sightings will be rife between the mountains more than 5.500 m.

Horse Riding Tour Operator

Accommodations will take place in hotel boutiques around the area as well as a spectacular glamping that will allow for exclusive conversations under the southern hemisphere's stars. Guides are experts pertaining to local flora and fauna, in addition to being members of the local communities. You will have the opportunity to get to know the culture and traditions of the women and men that inhabit the capital's mountain range. To conclude our experience -and as part of our philosophy- each rider will contribute to the reforestation of territories previously affected by wildfires. This goal is achieved by working alongside kids from local schools and permits to contribute to the development of the community. The difficulty of this adventure is medium, apt for all types of experienced riders that can endure 6 hours of riding a horse per day on average.

General *Information*

Chile is a Democratic Republic with a presidential system. The Central Government is located in the capital, Santiago. There are three areas of authority: the Executive, represented by the President of the Republic, which is located in Santiago in the Government House - the Palacio de la Moneda; the Legislature, represented by the President of the Senate, in the National Congress Building in Valparaíso and the Judiciary, represented by the President of the Supreme Court, in the Palacio de Justicia in Santiago. The official language is Spanish. The country is predominantly Roman Catholic but there is freedom of worship for other faiths. The capital, Santiago, has approximately 5.600,000 inhabitants. It is a modern, progressive city with a modern system of public transport. This includes particularly the Santiago Metro (underground/subway), which is of the latest design and functions excellently. In the city you will find all the facilities associated with a big city: theatres, museums, art galleries, cinemas, racetracks, horseback riding, golf courses and facilities for all kinds of sports, pubs and discotheques, plus restaurants serving typical and foreign food. In the most important sectors of the city there are Bureaux de Change which conduct transactions in the main currencies of the world. There are also free Wi-Fi in any places so you can maintain personal or business contact with your country of origin, and international newspapers are available from the city's main kiosks. Most countries have Consulates in the capital.

Chile's Central Zone is the most highly developed from the economic point of view, due to the greatest concentration of population in the country. The chief attractions of the great Santiago Metropolis might include its pretty residential areas, its industrial zones and its important civic center. The cities of Valparaíso and Viña del Mar, two of the country's important tourist and economic centers, are also situated in this area. The main ski centers of Latin America, such as Valle Nevado, Portillo, El Colorado and La Parva.

An enormous number of skiers gather at these centers from all over the world to enjoy themselves and practice their sport. Another source of development in this region is the winegrowing industry, with the presence of very important vineyards. Perhaps Concha y Toro and Cousiño Macul are the oldest and most traditional, but there are many smaller vineyards producing wines which are receiving some of the highest awards at international wine fairs. At this present time, the wineries are included in the development of tourism, as a result of the creation of various Wine Routes, enabling visitors to find out about the production processes and customs related with Chilean wine.

Regional handicrafts offer interesting products, while the large Malls and Shopping Centers offer items at genuine sale price, with an ample selection of clothes, shoes, perfumery and housewares. Credit Cards such as American Express, Visa and MasterCard are accepted and there is also a wide network of Cashpoint Machines for withdrawing local currency.
